

S-Series 19" Swing Frame Racks

Our "S-Series" range of Hypertec 19" Swing Frame Racks provides all the unique features you have come to enjoy on our "S-Series" wall mount range, with added swing-away feature. When additional uncompromising access is required, the rack can be unlocked and swung away from the wall allowing full access to the rear of your equipment for installation and/or regular servicing.

The racks are great for underneath stairwells or tight corners. Sturdy welded frame manufactured to precise dimensions from SPCC high quality cold rolled steel with a thickness of 1.5mm for the rails, 1.2mm for the frame and 1.0mm side panels, making Hypertec racks very rigid under load conditions. Hypertec Wall Mount and Swing Frame Racks are design to carry your valuable equipment up to a 60kg weight load when installed on suitable walls and in accordance with the manufacturer's instructions.

PART NO.	DIMENSIONS (mm)					INCLUDED ACCESSORIES			
	RU	Weight (kg)	Width	Depth	Height	Fixed Shelves	Fans	6 Way PDU (10A)	Cage Nuts
